EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the
payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Mr. Clyde L. Tichenor on June 28, 2004.

The application has been amended as follows:

In claim 12, line 1, --10-- has been inserted after "claim". Claim 12 is similar to claim 13 in that both recite "fastener means". The dependency of claim 12 apparently should be the same.

In claim 13, line 2, "such as Velcro are" has been changed to --is--.

The use of trademarks in the claim makes the claim indefinite.

2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose a flotation jacket including an airtight backing support structure; front and back collar air reservoirs located adjacent the upper edge of the support structure; front and back air reservoirs located adjacent the lower edge of the support structure; a plurality of tubes interconnecting the collar air reservoirs and the lower air reservoirs; and fastening means for fastening vertical edges of the support structure, generally as claimed.

Art Unit: 3617

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-15 are allowed.
